

to make
it work, invention
is the mother on two

the machine
if necessary. check
up press and guard before

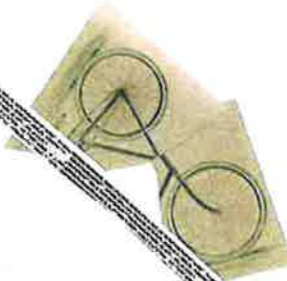

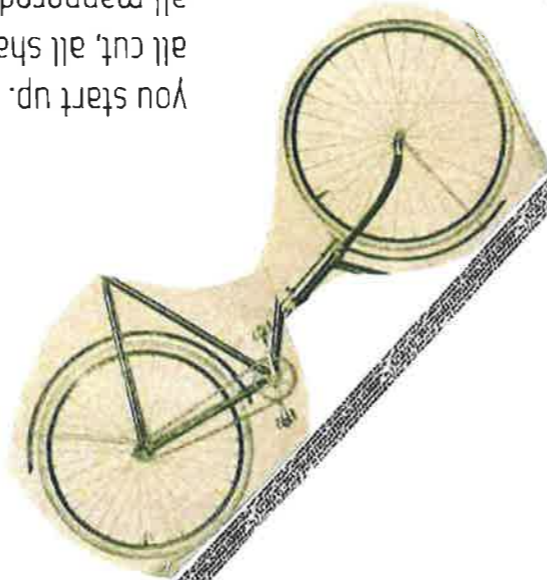

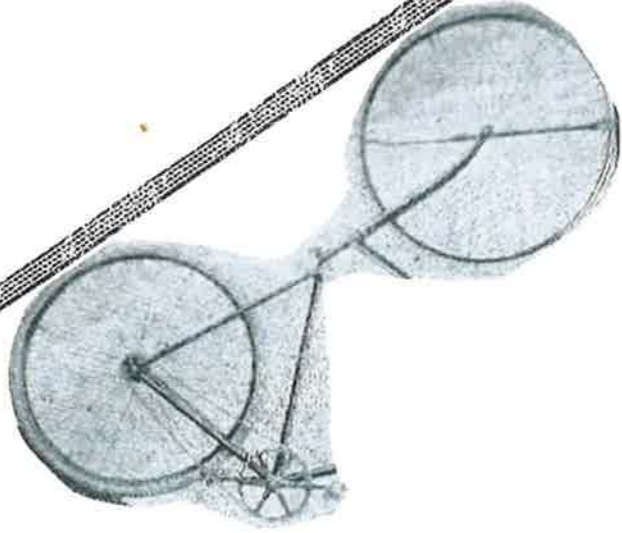

forge and smithy
durability before cheapness
do the work of a dozen men

tubes snug
one turns another
turns one turns a way

you start up.
all cut, all shaped the same two
all mannered the same two

colonise
settle, spin the wheel
first cost, last cost, stop

wheels
and everything
is material or it is

a
suitable
machine
for
the
millions

immaterial
floating, dust
between us
